TOI-what Expected semi-amplitude

Legend:
- CCF noise limit
- Instrumental stability limit
- 50-observations limit
- Lower limit on Mass for transit detection
- Upper limit on Period for co-planar transiting planets
- Upper limit on Period for i+5 deg transiting planets
- Upper limit on Period for i+10 deg transiting planets

Y-axis: Planet Mass [M]
X-axis: Period [d]
